Front-End & UX Development | Full-Stack | Back-End | Web Mobile

I am a *passionate* developer and coffee lover, with experience in back-end and front-end. I am interested in learning new technologies, always following the best practices of each new language and framework. I enjoy front-end development, and work for good details and a good user experience. Also, I really like to work the back-end too, in fact, I like working full-stack.

Work Experience

- **Cleteci - Web Developer & Scrum Master** | Sep 2014 - Present
 - **Ninja Developer & Scrum Master:** [Alanna](#): Web Platform (Angular) and Web Mobile Application (Ionic) for iOS & Android [BETA] (with common API on Ruby on Rails) of [Protocolo Tours](#).
